

suitable for electronic reproduction (see 37 CFR 1.52(a))." Applicant respectfully traverses the objection to the specification on the grounds listed.

The above-identified application is a reissue application. The rules for reissue applications specify that the specification should be provided "in double column format." See 37 C.F.R. § 1.173(a)(1). In particular, the rules provide that an "application for reissue must contain the entire specification, including the claims, and the drawings of the patent." See 37 C.F.R. § 1.173(a). The rules further provide that the "entire specification, including the claims, of the patent for which reissue is requested must be furnished in the form of a copy of the printed patent, in double column, each page on only one side of a single sheet of paper." See 37 C.F.R. § 1.173(a)(1). Because the original specification was provided in single column format, Applicant hereby provides the specification "in the form of a copy of the printed patent, in double column, each page on only one side of a single sheet of paper." Accordingly, Applicant believes that he has fully responded to the Notice to File Missing Parts.

Please associate the enclosed declaration and specification with the application, grant any extensions of time required to enter this response, and charge any additional required fees to our deposit account 06-0916.

Respectfully submitted,
